Contents Volume 1 1990/1991

Editorial vii

Unstable and damped modes in coupled ocean mixed layer and cloud models
P.C. Chu, R.W. Garwood (Monterey, Calif., U.S.A.) and P. Muller (Honolulu, Hawai, U.S.A.) 1

The role of the subtropical gyres in the heat balance of the Warmwassersphaere
G.T. Csanady (Norfolk, Va., U.S.A.) 13

The role of coastal Kelvin waves on the northeast Pacific Ocean
M.A. Johnson and J.J. O'Brien (Tallahassee, Fla., U.S.A.) 29

Intermediate models of intraseasonal and interannual waves in the tropics
G.R. Budin and M.K. Davey (Oxford, U.K.) 39

Interannual variability in the tropical Pacific as simulated in coupled ocean–atmosphere models
M. Latif and A. Villwock (Hamburg, F.R.G.) 51

Impact of prescribed sea surface temperatures on extended range forecasting
M. Déqué (Toulouse, France) 61

The biennial component of ENSO variability
E.M. Rasmusson, X. Wang (College Park, Md., U.S.A.) and C.F. Ropelewski (Wahington, D.C., U.S.A.) 71

Sensitivity and realism of wind-driven tropical ocean models
C. Duchêne and C. Frankignoul (Paris, France) 97

Sensitivity of wind-driven tropical Pacific Ocean simulations on seasonal and interannual time scales
A.J. Busalacchi (Greenbelt, Md., U.S.A.), M.J. McPhaden (Seattle, Wash., U.S.A.), J. Picaut (Nouméa, New Caledonia) and S.R. Springer (Seattle, Wash., U.S.A.). 119

Modeling North Pacific SST anomalies as a response to anomalous atmospheric forcing
U. Luksch, H. von Storch and E. Maier-Reimer (Hamburg, F.R.G.) 155

Simultion of the annual and interannual variation of the tropica Pacific Ocean
Y. Kitamura (Ibaraki, Japan) 169

Momentum coupling in ocean–atmosphere models
J.A.T. Bye (Bedfork Park, S.A., Australia) 183

A coupled ocean–atmosphere box model af the Atlantic Ocean: a bimodal climate response
G.E. Birchfield, M. Wyant and H. Wang (Evanston, Ill., U.S.A.) 197

Tracer distributions in ocean models with lateral and isopycnal diffusion
C.A. Lin and W.A. Gough (Montreal, Que., Canada) 209

Predictability and variability of a coupled ocean–atmosphere model
B.N. Goswami and J. Shukla (College Park, Md., U.S.A.) 217

A note on Bjerknes' hypothesis for North Atlantic variability
K. Bryan and R. Stouffer (Princeton, N.J., U.S.A.) 229

Potential role of oceanic mixed layer dynamics on the model climate sensitivity
T. Pálvölgyi (Budapest, Hungary) 243

A two-and-a-half layer upper ocean model: Formulation and response to parameter changes
J.Y. Cherniawsky and C.W. Yuen (Montreal, Que., Canada) 251

An analytical coupled air–sea interaction model
Z.-G. Ji and J.-P. Chao (Beijing, P.R. China) 263

A design of an oceanic GCM without the rigid lid approximation and its application to the numerical simulation of the circulation of the Pacific Ocean
Q.-C. Zeng, X.-H. Zhang and R.-H. Zhang (Beijing, P.R. China) 271

Tropical Pacific sea surface temperature variations in a coupled atmosphere–ocean general circulation model
M. Endoh, T. Tokioka and T. Nagai (Ibaraki, Japan) 293

Predictability of the tropical Atlantic Ocean
J.A. Carton and J. Shukla (College Park, Md., U.S.A.) 299

Application of the GHER 3D general circulation model to the Western Mediterranean
J.-M. Beckers (Liège, Belgium) 315

A reduced-gravity model of the Catalan Sea
E. Garcia-Ladona (Barcelona, Spain) and S. Djenidi (Liège, Belgium) 333

Mean fluxes across sections in the Mediterranean Sea derived from GCM results
E.V. Stanev (Sofia, Bulgaria) and J.-M. Beckers (Liège, Belgium) 343

The circulation of Levantine Intermediate Water in the northeastern Ionian Sea (late winter/early spring 1986)
A.J. Theodorou (Athens, Greece) 359

Interdisciplinary study on the thermohaline front at the mouth of Tokyo Bay in winter
T. Yanagi (Matsuyama, Japan), T. Saino (Tokyo, Japan), T. Ishimaru (Minato-Ku, Japan), H. Nakata (Tokyo, Japan) and Y. Iwatsuki (Miyazaki, Japan) 373

0924-7963/91/$03.50 © 1991 Elsevier Science Publishers B.V.

Application of a 3-D variational inverse model to the analysis of ecohydrodynamic data in the Northern Bering and Southern Chukchi Seas
P.P. Brasseur and J.A. Haus (Liège, Belgium) 383
Deep-sea hydrothermal venting: A recently discovered marine system
C. Lalou (Gif sur Yvette, France) 403
Variability of the shelf water off the northeast Spanish coast
M. Masó (Barcelona, Spain) and J. Tintoré (Palma, Spain) 441
